

5 DAYS IN BANGKOK

This five day stay in Bangkok is all about exploring the sights and surrounds of this vibrant city while staying at its beating heart on the banks of the Chao Phraya River in a luxury boutique hotel.

Key activities include temple visits, tours to the ancient Thai Capital - Ayatthaya, the famous Railway Market (where sellers give way to trains by pulling in their awnings) and visiting a Floating Market without hordes of tourists.

Independent visits to a mega Thai shopping mall and the House of famed silk merchant - Jim Thompson are accessed using the convenient ferry and rail transport systems.
